1. PURPOSE OF REPORT

1.1 To provide members of the Committee with oversight of the corporate risk register and developments in the Organisational Risk processes for West Midlands Police. The report also includes the risk register for the Police and Crime Commissioner.

2. BACKGROUND

West Midlands Police

2.1 This report was requested as a standing agenda item on the Committee. Since the last committee meeting there has been a pause on the risk management work to concentrate on the development of the new Force Governance structure. A key part of the new governance framework is the introduction of an Organisational Learning and Risk Board which will meet for...
the first time in April. The role of the board will be to identify and monitor organisational risks and learning opportunities, drawing from a number of key areas such as Domestic Homicide, and Serious Case Reviews, the findings from IPCC investigations, HMIC reports etc. The board will replace the existing Organisational Risk Board and will be chaired by the DCC, supported by a number of subgroups.

2.2 Since the last report a number of new risks have been raised and are currently being developed.

<td>Scanning of historic PPU Documents</td>
<td>As part of the WMP2020 programme a project was initiated to scan historic PPU paper records and make them available electronically. This was completed for all of the records held in Birmingham and at that time the project was paused. PPU are now requesting that the decision is revisited to ensure consistency across the Force.</td>
