19/20	1192	124
18/19	5117	563
17/18	No data	No data
16/17	No data	No data

Please note, the figures displayed do not reflect the total number of men approaching services for support, who were then signposted either directly or indirectly. The figures presented are for those cases which led onto support and are classed as open cases, as reported by the Office of the Police and Crime Commissioner's (OPCC) commissioned services.

The MOJ have changed their monitoring template a number of times. Referrals are now divided into 'new referrals' and 'new cases open'.
